

# Value creation story

Until last year, we took the perspective of what processes we should follow to create value, based on the IIRC's Octopus Model.\* This year, we tried to organize the elements into a story from a longer-term perspective. Although it will involve trial and error, we will work to enable people to connect with the value (of the Sansha Electric Manufacturing Group).

\* A figure (value creation process) showing the overall picture of the integrated report advocated by the International Integrated Reporting Council (IIRC)
